Augusta, Maine  
January 31, 1939

To the Inhabitants of the Town of Mount Desert:

This is to certify that this department, represented by Mr. G. C. Lewis, has completed an audit of the accounts of your town officials for the municipal year ended December 31, 1938.

Our report, herewith submitted, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of the above date.

The schedules contained in this report are as follows:

Comparative Balance Sheet with Proof of Change in Net Debt  
Report of Treasurer with Reconciliation of Treasurers Cash Balance

Report of Tax Collector with Lists of Uncollected Taxes

Summary of Overdraft and Unexpended Balances

List of Accounts Receivable

List of Bonded Debt

We wish to commend your town officials for the fine condition of their records and thank them for the cooperation rendered us during the course of this audit.

Respectfully submitted,

STATE DEPARTMENT OF AUDIT  
HAROLD E. CRAWFORD,  
Chief Auditor

HEC / K

## Report of the Town Manager

---

The Honorable Board of Selectmen  
and Citizens of Mount Desert:

In looking over last year's report, two projects were discussed, namely, Icy Hill and the Harbor improvement. Through the generosity of Mr. John D. Rockefeller, Jr., the necessary town funds were provided, Federal approval obtained and work begun December 22, 1938, by the Bridge Construction Corp. of Augusta, Maine, on construction of the new location of the Icy Hill Road. This work will continue through the winter and must be completed by August 1st, 1939.

Your attention is called to the report of the Trustees of the Port Authority, which covers in detail the progress made in our harbor improvement program which is very favorable to date.

The Federal Works Progress Administration approved a project for widening Sargent Drive, which started January 10th, and continued to January 21st, with fifteen men when the work was closed down and the men transferred to the Acadia National Park.

Work on the Sargent Drive was again started on October 27th with 37 men paid by the WPA. It is expected that work will continue on the Sargent Drive until the project is completed to route 198 at the Sound.

There are 64 men and one woman now working on Federal projects which is of great benefit to our Town.

Following is an approximate amount of money paid to residents of this Town as a result of Re-settlement work in Acadia National Park:

1936 \$18,226.15; 1937 \$19,050.75; 1938 \$21,000.00

Our relief problem still remains a serious one; during the year we gave assistance to 36 families of 164 persons, 13 single persons, and 23 persons residing in other towns.

State Aid Road funds were expended in two places, at Hadlock Pond on route 198 and at Pretty Marsh. At Hadlock Pond the work that was started in the fall of 1937 was completed and 1300 feet more constructed and tarred. At Pretty Marsh 4000 feet was graded, based and culverts installed. This road should be completed early this spring, and also extended 2300 feet to connect with the improved portion near Ober's Mill.

As soon as possible steps should be taken to re-locate and construct the road from the top of Brown Mountain north, to connect with the present road near Murphy's gravel pit. Proper location at this point will reduce the grade and eliminate dangerous curves.

The general road fund shows an overdraft of \$1,387.56. There is on hand approximately 3000 cubic yards of crushed rock which has a value of \$9,000.00.

The refuse account has a balance of \$1,255.44. This is the result of selling the garbage for \$200.00 plus saving the price of transporting the garbage to sea.

The splendid cooperation of both summer and permanent residents is greatly appreciated.

Respectfully submitted,

Herbert A. Thomas,  
Town Manager.

ARTIST'S CONCEPTION  
OF  
PROPOSED HARBOR DEVELOPMENT

LOOKING EAST FROM SEA STREET

LOOKING WEST FROM THE HARBOR

ANNUAL REPORT OF  
THE PORT OF NORTHEAST HARBOR AUTHORITY  
31 December 1938

---

In accordance with a request of the officials of the Town of Mount Desert, Senator Wallace H. White, Jr., and Congressman Ralph O. Brewster caused to be inserted in the River and Harbor Bill of the 75th Congress, approved 26 August 1937, an authorization to the Secretary of War, directing him to cause a preliminary examination and survey of Northeast Harbor. Pursuant to the Act, the U. S. Engineers held a public hearing in the Town Office on 21 October 1937, presided over by Captain Elliott, U. S. Engineer Corps. At this hearing a plan for the dredging of the harbor in the vicinity of Sea Street was presented. The plan included the building of a quay or bulkhead at the mouth of the tidal cove south of Sea Street behind which the disposal from the dredge would be placed, thus making new land for the Town covering an area of approximately 7½ acres usable for a Town park or other purposes. Suitable facilities were included in the plan for the handling and servicing of visiting yachts and conveniences for the owners and crews.

At a special session of the Legislature of the State of Maine held during the month of October 1937, due to the efforts of Senator Rae D. Graves, Mr. Percy T. Clark, a member of the Governor's Council, and Governor Lewis O. Barrows, an Act creating The Port of Northeast Harbor Authority was passed and approved by the Governor 29 October 1937. The Act was accepted by the Town at the Annual Town Meeting 7 March 1938 and \$5000 was voted for carrying forward the program of the Authority. At a Special Meeting on 4 April 1938 three Trustees were duly elected.

The crew of U. S. engineers and surveyors arrived in Northeast Harbor in the early part of June 1938 and their examination and survey as authorized by Congress was completed by the end of June.

During this period the Authority employed Griswold and Gulick of Boston to make the architectural plans, and Prentiss and Carlisle of Bangor on the engineering designs, the Sanders Engineering Company of Portland having made preliminary probings and report. The engineering work is substantially complete in respect to design, specifications and cost estimates, ready to proceed when the funds

are available. On the architectural work the preliminary drawings only have been completed.

Upon the passage by Congress of the Work Relief and Public Works Appropriation Act of 1938, the Port Authority made application to PWA:

For a grant of .....	\$ 55,399.50
and a loan of .....	67,710.50
<hr/>	
Together .....	\$123,110.00

which was the estimated approximate cost of the project without including the dredging. At this time it was considered feasible under the Act to obtain an interdepartmental allocation from the Public Works Administration to the War Department to carry through the dredging. During the summer of 1938 various meetings of the Town Planning Committee, Village Improvement Society Committees and sub-committees were held and gave careful consideration to the plans of the Authority. As a result of these discussions, the plans were modified and the Port Authority decided to sell its bonds locally in place of the application for a loan to PWA so that the PWA application was changed to the following:

Grant .....	\$38,873.25
Sale of Port Authority Bonds .....	50,000.00
<hr/>	
Total estimated expenditure .....	\$88,873.25

The final estimate of the War Department on the cost of dredging was \$94,500, which in any plan followed will be borne by the Federal Government.

Due to technicalities of the law and policies adopted by the President and Public Works Administrator, it was found impossible to obtain an interdepartmental grant from PWA to the War Department to accomplish the dredging. The dredging, therefore, will have to await approval and appropriation by Congress, which it is expected will be forthcoming in the session of 1939. Because of our inability to get funds for the dredging the Authority was unable to get a PWA grant for the shore facilities.

The project will now have to follow the usual course of the River and Harbor Bill through Congress and it will undoubtedly receive the closest possible attention from our Representatives in Congress.

Out of the \$5,000 appropriated by the Town and the \$100 donation by the Mount Desert Chamber of Commerce, \$3,610.11 has

been spent, leaving \$1,489.89 available in the future. The expenditures were as follows:

Administration	
Percy T. Clarke, legal expenses .....	\$ 578.00
Bar Harbor Times Pub. Co., printing .....	16.20
Wm. S. Holmes, Postmaster, postage .....	16.38
C. D. Merrifield & Co., stationery .....	4.94
Mt. Desert Larger Parish, use of mimeograph .....	2.10
New Eng. Tel. & Tel. Co. ....	21.45
Henry Rawle, traveling expenses to Boston, New York and Washington, etc., for conferences with public officials .....	235.14
The Architectural Forum .....	4.00
Kelvin & Wilfred O. White Co. ....	.91
Superintendent of Documents .....	1.00
	\$ 880.12

Architects

Griswold & Gulick, Inc., preliminary designs and drawings .....	350.00
350.00	

Engineering

S. B. Brown .....	4.35
W. H. Black .....	2.00
Douglas Burr .....	3.00
Maurice H. Burr, surveying and profiling on tidal cove and other surveys .....	157.00
Cronin Office Supply Co., stationery and blueprints .....	20.45
George Grant .....	1.10
Haynes' Express .....	2.30
Hamor & Stanley, material and labor on surveys .....	74.88
Elmer Meader .....	23.75
Otis M. Ober Co. ....	1.77
William Peckam, Jr., .....	23.75
Prentiss & Carlisle Co., surveys, engineering studies, designs, cost estimates ....	1,704.97
B. L. Makepeace, Inc. ....	34.30

Henry Rawle, payment of Mr. Atwood's expenses to Boston for conference with U. S. Engineers .....	21.66
Sanders Engineering Co., probings, survey and report .....	289.30
Ernest Young .....	10.00
E. A. Hodgdon .....	2.96
Sunset Garage .....	2.45
	2,379.99
<b>TOTAL</b> .....	<b>\$ 3,610.11</b>

If and when the project is approved by Congress and Federal funds become available for dredging, the U. S. Engineers will offer a contract to The Port of Northeast Harbor Authority to do the dredging on the harbor on condition that the Authority furnish the spoil disposal area in the tidal cove south of Sea Street, properly bulkheaded, and make available free public landing and suitable facilities for service and supply of pleasure craft, and release the United States from all claims for damages attributable to the work of improvement. This makes it essential to have all questions pertaining to real estate settled by that time and the money in bank available for the suitable bulkheading and landing facilities.

It is therefore considered most advisable, and so recommended by the Trustees of the Authority, that the Town set aside a part of this fund while awaiting Federal approval of the project, and with this in view, that there be included in the Warrant at the Annual Town Meeting of 1939 the sum of \$6000 to be raised by taxes for the purposes of the Port Authority.

The Port of Northeast Harbor Authority

Henry Rawle, Chairman  
Charles K. Savage  
W. Barton Eddison

Trustees.

OF  
THE PORT OF NORTHEAST HARBOR AUTHORITY  
22 January 1939**

Congressman Ralph O. Brewster has notified the Trustees that the report of the U. S. Engineers recommending the dredging of Northeast Harbor has been approved by the River and Harbor Board of Engineers, the Chief of U. S. Engineers, the Secretary of War and the President, and will shortly be transmitted to Congress. It is hoped and expected that it will be included in the River and Harbor bill of the current session.

While the development of harbor facilities for yachts on the southern coast of the United States has for some years been a most important factor in the economic progress of coastal towns, it is new to the coast of Maine in the form proposed, and represents pioneering in both engineering and legal aspects, particularly in the formation of a Port Authority in conformity with the Constitution and legal practice of the State. Because of certain legal criticisms of the present act, and criticisms of the existing rental contract between the Town and Port Authority, the Trustees, by and with the advice of their legal counsel, will request the legislature to pass a new act placing the authority in respect to revenue on the same basis as School and Water Districts of the State. It is also proposed to change the name to "The Port Authority of the Town of Mount Desert," a name more nearly describing its aims and functions.

The objective of the harbor plan is to better the economic status of the whole community by bringing a larger share of the constantly growing number of cruising yachts to our harbors and their owners to our villages for their summer recreation. As this is the pioneering effort of its kind on the coast of Maine it is important as a matter of public policy that the legal and administrative details should be perfected so that all communities on the coast who desire to follow our lead may benefit by the precedent created here.

The harbor plan has been the subject of much publicity and discussion throughout the State and its success here would undoubtedly gradually lead to similar undertakings in other Maine coast harbors, a much to be desired result, as the better the cruising area the greater the number of cruising yachts.

The Port of Northeast Harbor Authority

Henry Rawle, Chairman  
Charles K. Savage  
W. Barton Eddison

Trustees.

## Report of Sealer of Weights and Measures

---

I have made personal calls on all places of business and Gas Stations where weights, scales, measures and pumps are used, examined and tested same finding them all correct.

GEORGE E. TURNER  
Sealer of Weights and Measures,  
Town of Mount Desert.

## Report of Superintendent of Schools

---

To the Superintending School Committee and Citizens:

I present herewith the annual report of the schools of this Town, with the usual financial statement. Reports from the Principals of the High Schools are also included herein for your consideration.

The financial statement probably requires no explanation, but we would call attention to several facts regarding school expenditures of the past year.

The consolidated statement indicates that a small balance remains after payment of all outstanding bills, although it was necessary to overdraw, to a considerable extent, the general school fund. This overdraft will be taken care of by a redistribution of the funds appropriated for next year, and does not assume the necessity of any increase in such appropriations.

The outlay on school buildings and equipment has been unusually heavy. The most outstanding improvement, the remodeling of the Otter Creek building, has provided for that community a physical plant in keeping with those in other parts of Town. Three splendid new standard classrooms are now in use. The fourth, not finished, can be made available with a small outlay, and will care for any increase in school enrollment that may come in future years. The building is modern in design and construction, with standard lighting area, good ventilation and adequate toilet facilities. The school grounds have also been leveled and resurfaced, to afford more satisfactory playground area.

Our State school laws require that in every Grade A High School, provisions be made for the equipment and maintenance of a library. To that end we have partitioned off a section of one classroom in the Gilman school, and have purchased a number of new library books, as well as standard periodicals which are in constant demand for classroom use. New books have also been added to the libraries of Mount Desert High School and all of the elementary schools, as a means of encouraging boys and girls to develop an interest in reading, and a love for good books.

Increased enrollments in all schools have made necessary the purchase of a considerable number of new seating units. It would seem advisable to replace, as rapidly as possible, many of the seats in the Gilman building, some of which have already passed the

period of useful service. These units are quite expensive, and account for a good percentage of our equipment outlay.

Early in the fall term the chemical toilets at the Hall Quarry School rusted out, and were replaced, temporarily at least, by a new installation. We recommend that the installation be completed next summer, in the interest of health and sanitation.

A new bus was purchased, during the past summer to replace the worn out Reo in use from the Sound to the Mount Desert school. The unit consists of a Springfield body mounted on a Ford chassis. It has proved both economical and comfortable, and a most welcome improvement over previous conditions.

We have recently installed two new electric ranges in the home economics department at Gilman High School. These ranges were purchased through the Bangor Hydro-Electric at a very low school rate. Many towns within the State have, in the last two years, found it advisable to reorganize this department and introduce a so-called vocational course. Under such an arrangement the girls are given the same training, but there is much more of the project type of work, and greater opportunity for individual initiative. Stress is laid upon work in the secondary rather than the elementary grades. Under vocational organization the financial returns to the Town from the State are considerably larger, also, a factor well worth consideration. With our present equipment it would be, we believe, to the Town's advantage, both financially and educationally, to introduce the vocational course at the first opportunity. We would, in passing, again call attention to the value of our industrial courses. They are being well taught, and the results are most satisfactory. The boys in the manual training department have carried through several most interesting and practical projects in both woodworking and mechanical branches.

Looking back over the year that has passed, we feel that there is evidence of definite progress. The professional attitude of Principals and teachers; their ready and willing cooperation; the sincere effort that has been expended in an attempt to improve both curriculum and teaching methods; these are things that have contributed much to the success of the past year, and which will continue to characterize the work of the coming year.

Realizing that, like any other worth-while enterprise, teaching demands the most economical and the most modern methods of procedure in a modern day, a considerable number of the teachers have found opportunity, either through summer school or through extension work on Saturdays at the University, to broaden their background of cultural and professional training. Others are plan-

ning now to attend normal schools and colleges during the coming summer.

We would also call attention to the hearty support given the recent Red Cross course in First Aid. A large group of teachers, under considerable difficulty, carried the course through to completion, and are now certified to teach this most valuable information in the class room, as well as to practice it where frequently demanded, around the school.

In connection with the work of the Red Cross, we would, at this time, express our appreciation of the work carried on by our nurse, Miss Nelson, who has given much of her time and energy in promoting the health and welfare of the children in our schools.

The year has been quite a number of changes in the teaching staff of the various schools. Space will not permit mention of each teacher, but we have included in this report a table showing the list of teachers employed at present and various other items, including their term of service in this Town.

We think especially, at this time, of Irving Babbidge. His death, last November, brought to a close a term of eight years of faithful service as conveyance driver. Pupils and teachers, alike respected him, and found in him a kindly and cheerful friend, always ready to serve the school in any capacity.

In bringing this report to a close, we take this opportunity to extend our sincere thanks to Mr. Thomas, the members of the School Committee and other Town officials for their ready assistance. We appreciate also the cooperative attitude of parents throughout the Town. And to the Principals, Teachers, Janitors and Conveyance Drivers, we express our sincere appreciation of their loyal support throughout the year.

Respectfully submitted,

I. E. ADAMS,

Superintendent of Schools.

To the Superintendent of Schools:

A summary of the enrollment and activities of Gilman High School for the past year follows:

The enrollment shows an increase over 1937-38 of nine, as indicated below—

Post Graduates .....	4	Division by courses
Seniors .....	19	College Preparatory ..... 40
Juniors .....	18	Industrial Arts ..... 56
Sophomores .....	27	
Freshmen .....	28	Division by sex
	—	Girls ..... 40
Total .....	96	Boys ..... 56

The change in courses as inaugurated a year ago has been maintained except for the re-establishment of an advanced course in shorthand.

In the Home Economics Department 23 high school and 40 grade pupils are enrolled. There is no change in the units offered in this course. Two new electric ranges have been installed in the Home Economics room, making it possible for the lessons to be planned on the family meal basis. Each two girls prepare a different food which combined, result in a well balanced meal. Last spring the Freshman class had an exhibit of clothing which they had made. This year there will be an exhibit of work done by both high school and grade pupils. The girls have been preparing daily a hot dish for their noon lunch. This project will doubtless be enlarged in the near future.

The Manual Training Department has a total enrollment of 77, including high school and grade pupils. The usual projects have been, or are being, completed. In addition, an old truck is being rebuilt into a tractor while a wood sawing machine is being constructed from an old automobile. Storage cabinets are being built for the Mount Desert High School laboratory. Included in the new equipment is an electric drill. The work done in the Gilman High School building is described later in this report. An exhibit of the boys' craftsmanship was made at the State Teachers' Convention in Bangor last October. The articles exhibited compared most favorably with those from other schools and reflected credit on the department.

During the past year a carefully drawn constitution for the Student Council was adopted. The Council has general supervision

of the activities of the following clubs which were organized last fall: Glee Club, Dramatic Club, Hiking Club.

Also during the fall semester a modified form of student government was instituted experimentally, and to date is working satisfactorily.

The usual number of plays were presented to the public, and, in addition, original plays by the students were offered during the activities period. For the Junior Speaking this year a judge was procured from the Department of Public Speaking, University of Maine.

The Woman's Literary Club prize of \$50 was awarded to Maxine Crooker who is now a student at Westbrook Junior College. The Old Timers' Club gold watch went to Earl Hodgkins who entered the University of Maine. The Mount Desert Lions Club Sophomore prizes of \$5 each were won by Joan McNulty and John Suminsby.

The following were elected to membership in the National Honor Society: Seniors—Maxine Crooker and Shirley Wagner, at present a student at Colby College; Juniors—Dorothy Hodgkins.

Our school enjoyed a successful year in athletics, winning more than our share of honors in basketball, baseball and track. In Bestocca we captured our share of ribbons and points.

This year a new ranking system, conforming to the method employed by schools almost universally, is being used. The parents should be able to draw more adequate conclusions in regard to the pupils' work than in the past.

The increased enrollment resulted in a shortage of both room and desks. New desks have been set up in the English room which have taken care of the situation quite satisfactorily for the present. The prospect of a still larger student body next year indicates the need of more desks next fall.

A need of years has been partially satisfied by the construction of a reading room and library, built entirely by the Manual Training department under the supervision of Mr. Crooker, the instructor of manual training. This room is a matter of pride to the school, and the boys have every right to be proud of their workmanship. The many new books, of wide variety, provide us with much needed and reference material. Also, the boys have built closets for laboratory equipment which fill a need of long standing.

Several of our teachers have taken advantage of the opportunity for instruction in First Aid offered by the American Red Cross, and have completed the Instructor's Course of 30 hours.

During the past year four members of the faculty took Saturday courses at the University of Maine with the purpose of keeping their teaching methods up to date.

More than one-third of our students have indicated their intention of joining one of the Railway Express Company's conducted tours to the World's Fair in New York, and are devoting their time and energy to raising the necessary funds.

Respectfully,

CARL E. KELLEY,

Principal

---

### MOUNT DESERT HIGH SCHOOL

Mount Desert High School opened its fall term with an enrollment of thirty-two students divided as follows:

Freshmen .....	8		
Sophomores .....	9		
Juniors .....	4	College Preparatory .....	15
Seniors .....	11	General .....	17
 Total .....	 32	 Total .....	 32

It is indeed pleasing to the faculty and to the student body that seven out of ten students who were graduated last June were accepted in institutions of higher learning. We have at present students at the University of Maine, Gorham Normal and Farmington Normal Schools, Quincy City Hospital and Burdett Business College.

Several changes in the course of study were suggested and added to the curriculum by Superintendent Adams. All have proved very successful and beneficial to the larger percentage of students who do not elect the college preparatory course. We are endeavoring to teach citizenship as one of the important subjects of a well rounded high school curriculum. This, correlated with actual practice and follow-up work outside the hours spent in school, will provide a worth-while foundation supplementing the academic subjects.

Placing athletics second in importance to scholastic ability, we are proud of our past year's record of twenty-four wins out of thirty games in basketball and our winning the State "Y" Championship for the second consecutive year. However, sportsmanship is the prime factor taught, not wins and losses.

The school and teachers deeply miss our efficient bus driver of many years, Mr. Babbidge, and daily are reminded of his ever willingness to serve us. Likewise do we miss our janitor, Mr. Harriman, who, because of ill health, has been forced to resign after many years of service.

The faculty of the school has found Mr. Adams and the members of the school committee ever willing to help when such was for the advancement of real education.

I wish to take this opportunity to thank those members and Mr. Adams for their constructive help the past year.

Respectfully submitted,

ROLF B. MOTZ,

Principal
